Heart International

Established: 2005 Frequency: Bi-annual
Current edition: Volume 20 Issue 2, 2026

Aims and scope

- *Heart International* enables time-pressured physicians to stay abreast of major advances and opinion in cardiovascular disease.
- *Heart International* comprises balanced and comprehensive articles written by leading authorities, addressing the most important and salient developments in the field of cardiovascular disease.
- *Heart International* endeavours to support physicians, clinicians and related healthcare professionals in continuously developing their knowledge, effectiveness and productivity. The editorial policy has been designed to encourage discussion among this peer group.
- Comprehensive bibliographies for each article mean that *Heart International* is an informative and valuable reference tool for use throughout the year.
- All articles are subject to peer review, and must adhere to the ICMJE, GPP 2022 and COPE guidelines.

Structure and format

- *Heart International* is a peer-reviewed, free-to-access, bi-annual journal comprising review articles, original research, case reports, editorials and practice pearls.
- The structure of each edition of the publication comprises section categories determined by the Editor. The degree of coverage assigned to each category is the decision of the Editor, and in part reflects the views of the Editorial Board.
- All articles disclose any author financial and non-financial relationships and activities, along with any funding, financial support and medical writing assistance.
- Each edition of *Heart International* is published in full online at www.touchCARDIO.com.

Editorial expertise

Heart International is supported by various levels of expertise:

- Guidance from an Editorial Board consisting of leading authorities across all areas of cardiovascular disease.
- Invited contributors who are recognised authorities from their respective fields.
- Peer review: conducted by experts appointed for their experience and knowledge of a specific topic.
- An experienced team of Editors and Technical Editors.

Peer review

- On submission, all articles are assessed by the Editor to determine their suitability for inclusion and appropriateness for peer review.
- The Editor identifies appropriate reviewers, who are selected on the basis of their specialist knowledge in the relevant area, following consultation with a member of the Editorial Board where necessary.
- We aim to have the final peer-review decision within 4 weeks.
- Following review, papers are either accepted without modification, returned to the author(s) to incorporate required changes or not accepted for publication.
- The Editor reserves the right to accept or reject any proposed amendments on the advice of the Editorial Board and reviewers.

Submissions and instructions for authors

- The Editor commissions articles with guidance from the Editorial Board, and unsolicited articles are welcomed.
- The Editor is always keen to hear from authors wishing to discuss potential submissions, and will give due consideration to any proposals. Please contact the Editor for further details: editorialmanager@touchmedicalmedia.com
- Instructions for authors are available from the website www.touchCARDIO.com

Distribution and readership

Heart International is distributed globally, on a bi-annual basis, through controlled circulation to healthcare and pharmaceutical professionals in the field.

Abstracting and indexing

Heart International is abstracted, indexed and listed in PubMed (PMC), EBSCO, Emerging Sources Citation Index (ESCI), Scopus, Google Scholar, Genamics Journal Seek and IndexCopernicus.

Copyright

Authors transfer the copyright of the article to Touch Medical Media, who publish the article as free-to-access to registered users.

Free-to-access

All articles are free-to-access, which allows anyone in the cardiology field to download published articles free of charge.

Online resources

www.touchmedicalmedia.com provides clinicians and other industry professionals with free resources spanning nine therapy areas including cardiology, endocrinology, haematology, immunology, infectious diseases, neurology, oncology, ophthalmology and respiratory and pulmonary diseases.

Society partners

touchCARDIO.com has developed very valuable society partnerships with the most respected not-for-profit medical societies both in Europe and the USA.

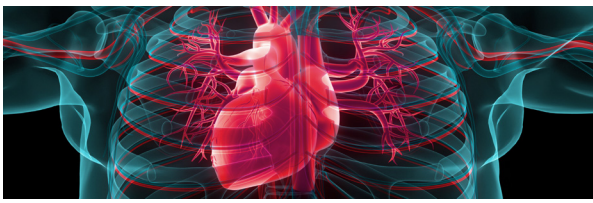

These partnerships are key as touchCARDIO.com helps to promote awareness of these medical societies while also providing free-to-access, peer-reviewed articles and multimedia content to the society members, which ensures that the industry is kept up-to-date with the latest cutting-edge content and opinion from world-renowned doctors.

About Touch Medical Media

Touch Medical Media publishes a rich and diverse portfolio of fully referenced, free-to-access journals across the clinical and pharmaceutical arenas. Touch Medical Media aims to assist in the education and practice of healthcare and pharmaceutical professionals. ❑

Contents

Foreword

1 **Foreword**
Magdi El-Omar
Manchester Heart Centre and Honorary Senior Lecturer, University of Manchester, Manchester, UK

Letter to the Editor

Arrhythmia

2 **Letter to the editor regarding: 'Mechanistic interpretations of sustained ventricular fibrillation: The role of mapping methodology, model and time'**
Aysha Hashmi
Shaikh Khalifa Bin Zayed Al- Nahyan Medical and Dental College, Lahore, Pakistan

Commentary

Heart Failure

3 **Beyond borrowed therapies: Ifetroban Fast Track designation in Duchenne muscular dystrophy cardiomyopathy**
Erica J Carrier and James D West
Division of Allergy, Pulmonary and Critical Care Medicine, Vanderbilt University Medical Center, Nashville, TN, USA

Review

Cardiovascular Disease

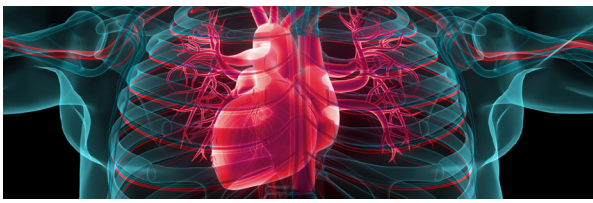

6 **Clinical trials in transthyretin amyloid cardiomyopathy: Past, present and future**
Adam Ioannou
National Amyloidosis Centre, University College London, London, UK

Heart Failure

13 **Iron deficiency in heart failure: Diagnostic markers, prognostic accuracy and evolving definitions**
Aditya John Binu
Department of Cardiology, Christian Medical College, Vellore, Tamil Nadu, India

touch MEDICAL MEDIA

Contents

Systematic Review

Congenital Conditions

23 **Family experiences in pediatric congenital heart disease: An integrative analysis of psychosocial adaptation, healthcare interactions and long-term care trajectories**

Tchana Bertrand,[1] Jenny Wilson,[2] Muhammad Essa,[3] Asra Mehar[4] and Kiran Kumar[5]

1. Pediatric Cardiology Division, Azienda Ospedaliero-Universityaria di Parma, Parma, Italy; 2. University of Edinburgh, Edinburgh, UK; 3. King Saud University, Riyadh, Saudi Arabia; 4. University of Nizwa, Nizwa, Oman; 5. University of Chicago, Chicago, IL, USA

Interventional Cardiology

33 **Cardiac tamponade secondary to hypothyroidism: A systematic review**

Faris F Halaseh,[1] Suraj M Rajan,[2] Nadia Nash,[3] Rami Halaseh[4] and Khalid Namoos[5]

1. Department of Medicine, University of California, Irvine, CA, USA; 2. Herbert Wertheim School of Public Health and Human Longevity Science, University of California, San Diego, CA, USA; 3. The Ohio State University College of Medicine, Columbus, OH, USA; 4. Department of Medicine, University of California, San Francisco, CA, USA; 5. Department of Medicine, University of California, Los Angeles, CA, USA

Original Research

Hypertension

41 **Leveraging artificial intelligence-enabled mobile phone application in measuring cardiovascular parameters in adults: A hospital-based study from North India**

Madhur Verma,[1,2] Pritam Halder,[3] Prakash Kumar,[1] Amandeep Kaur,[4] Arnav Goel,[5] Arsh Anwar,[6] Rajiv Sondhi,[7] Bhupinder Singh,[8] Preeti Dhoat[4] and Rakesh Kakkar[1]

1. Department of Community and Family Medicine, All India Institute of Medical Sciences, Bathinda, Punjab, India; 2. AIIMS Bathinda-BFI Incubation Centre for Medical Technology Validation, All India Institute of Medical Sciences, Bathinda, Punjab, India; 3. Department of Community Medicine and School of Public Health, Post Graduate Institute of Medical Education and Research, PGIMER, Chandigarh, India; 4. Department of General Medicine, All India Institute of Medical Sciences, Bathinda, Punjab, India; 5. Geospatial Data Science, Purdue University, West Lafayette, IN, USA; 6. Medista.ai, New Delhi, India; 7. Medista.ai, Columbia, MD, USA; 8. Department of Cardiology, All India Institute of Medical Sciences, Bathinda, Punjab, India

Case Report

Imaging

49 **Multi-site infective endocarditis complicated by a left ventricular abscess and pseudoaneurysm: A case report**

Mahima Tyagi,[1] Tori Seasor,[2] Mark S Slaughter[3] and Dinesh K Kalra[1]

1. Division of Cardiology, Department of Medicine, University of Louisville, Louisville, KY, USA; 2. Department of Pathology and Laboratory Medicine, University of Louisville, Louisville, KY, USA; 3. Department of Cardiovascular and Thoracic Surgery, University of Louisville, Louisville, KY, USA
